

July 2021

Following the guidance from the Centers for Disease Control and Prevention (CDC):

- Temperature checks will no longer be required.
- Pre-registering for worship will no longer be required.
- Nursery care during worship will be re-introduced in the coming weeks.
- People who are fully vaccinated will not be required to wear a mask or maintain social distancing.
- Persons not fully vaccinated, immune-compromised, uncomfortable without a mask, or families with children are encouraged to wear a mask and maintain social distancing.
- All worshippers are urged to fully participate in worship through the singing of hymns and speaking of liturgy.

As for the Adult Sunday school classes, you are no longer required to follow the capacity limitations or wear masks. The building may be used as it was pre-pandemic.

Only our childcare team is required to wear masks for the protection of the unvaccinated children in their care.

All outreach, support and small groups, as well as scouting groups may return to the building pre-pandemic. Please reserve your spaces with Pam Inman: pam@mtpisgahgso.org or 336-288-3321.
